Abstract: *Online financial fraud has become a major concern for individuals and organizations worldwide. With the increasing use of technology, cybercriminals have found new ways to deceive people into revealing sensitive personal and financial information or making unauthorized transactions. Thus, it becomes necessary to raise awareness among people about online financial frauds and preventive measures. The modern era is the era of technology; the internet has penetrated every part of our lives, and online banking and finance are no exception.*

Keywords: financial crime, fraud, cyber-crime, forgery, theft
