

A Study on Eco Friendly Management of Housekeeping Department

Ajay Kadam

Bunts Sangha's Ramanath Payyade College of Hospitality Management Studies, Mumbai, India

Abstract: *This study aims to explore and analyse the implementation of eco-friendly practices in the housekeeping department of hotels. It examines the strategies, challenges, and benefits associated with adopting sustainable practices in housekeeping operations. The study also investigates the impact of eco-friendly management on environmental conservation, cost reduction, and guest satisfaction. The findings of this study can provide insights and recommendations for hotels seeking to enhance their sustainability efforts within the housekeeping department.*
