Bunts Sangha's Ramanath Payyade College of Hospitality Management Studies, Mumbai, India

**Abstract:** *This research articles focuses only on conduct of online practicals of core subjects in hotel management colleges in Mumbai .The sample size was 1170 for which students from various hotel management institutions were identified. The instrument for collecting of primary data was questionnaire and it was collected using simple random sampling technique. The findings of study are (1) online practicals of food production subject were conducted more regularly on an average 8 to 10 online practicals were conducted . There are more disadvantages of conducting online practical's than the advantages of online practicals. We can conclude that the practicals conducted online are not that effective as physicals practicals conducted during college.*
