

# Powder Type Self Compacting Concrete for Infrastructure Projects

A. Kankate<sup>1</sup> and Dr. C. K. Shridhar<sup>2</sup>

<sup>1</sup>PG Student, Department of Civil Engineering K.C.T LT. G.N. Sapkal College of Engineering Nashik

<sup>2</sup>HOD Department of Civil Engineering K.C.T LT. G.N. Sapkal College of Engineering Nashik  
avdhutkankate@gmail.com

**Abstract:** *Self-compacting concrete is defined as a concrete which is capable of self-consolidating without any external efforts like vibration, floating, poking etc. under its own weight. The mix is therefore required to have ability of passing, ability of filling and ability of being stable.*

**Keywords:** *Self-compacting concrete*
