Abstract: Edwin Sutherland an American social scientist who previously characterized the white collar crime worldwide. He depicted this white collar crime committed by the persons of high social status when contrasted with the individuals who carry out standard violations throughout his work. In 1934, Agan Morris noticed the need for an adjustment in accentuation in regards to wrongdoing. He captured that the enemy of Social exercises of people of high status perpetrated throughout their calling should be carried with the class of wrongdoing and ought to be made culpable. At long last, E.H. Sutherland through his spearheading Work underscored that these Upper Worked wrongdoings which are carried out by the people of upper Socio-financial gatherings in course of their occupation - abusing the trust , Should be named as White Collar Crime So as to be recognized from Traditional crime which he considered Blue Collar Crime And the idea of White Collar Crimes discovered its place in criminal science without precedent for 1941. the Traditional crimes are immediate and are close to home. They likewise include rough techniques like utilizing power to perpetrate wrongdoing. Another contrast among blue collar crime and the white collar crimes is that the financial loss of white collar crime is a great many occasions higher than that of normal violations. The monetary misfortune which the general public needs to bear is higher in white collar crime than the violations carried out by individuals of low-social norm.

Keywords: white collar, legal, blue collar crime, force and financial loss.
