A Study of the Effects of Covid-19 Pandemic on Share Investment of Tata Motors w.r.t. NSE from 1st April 2020 to 31st March 2021

Rupali Raut and Prof. Ishwari Ukunde Jhulelal Institute of Technology, Nagpur, India

Abstract: Tata motors Limited is India's largest automobile company. It is the largest commercial vehicle manufacturer in India and 2nd largest passenger car and bus manufacturer. This project is an attempt to analyze the effects of Covid-19 pandemic on share investment in Tata motors on NSE from 1st April 2020 to 31st March 2021. This research aims to find the pre and post pandemic situation or changes in market of TATA Motors. It is necessary to know about the changes in share prices of tata motors and the effect of covid-19 on the price and investments on tata motors. As the activities on a stock market tend to be specialized and not understood by common people, this chapter will give some basic definitions and review stock market history, participants, operations and importance, so as to serve as a basis for understanding how stock market can help promote investment and trade in a monetary zone. Besides, review of other studies will be done in this chapter to give various dimensions of stock market in an economy.

Keywords: Automobile, Tata Motors, Covid-19, Share Market.
