**Abstract:** This paper describes the offers provided by our application for Job seekers. It offers how wide range of Job listings is provided with interactive community platform and AI Assistant to give personalized guidance & support to make your Job Preparation a journey a breeze. This research project focuses on the significance of job search websites and the importance of efficient user logins on these platforms. Job placements have become increasingly crucial, as many people's livelihoods rely on them. Job seekers and recruiters both rely on job portals to discover the right match for their requirement. Job portals provide a list of companies for them.
