**Abstract:** *“Action Research is accepted in a academy setting. It's effective process that allows for enquiry and discussion as the factors of the exploration. Action Research is one of those terms that we hear relatively frequently in moment's educational circles but just what does it mean? If you ask three people to define action exploration you may find yourself with three different responses. Inattentive in the class can have a found effect on academic success if it continuous for a prolonged period. Several causes range from colorful diseases, stressors in the child's home or academy terrain, or not getting enough sleep at night. Of utmost significance is to avoid jumping to conclusion and to find the root of the problem for the child development ”.*

**Keywords:** Action Research
