Abstract: *While the NEP has included sport and physical activity as an integral part of their educational continuum for children in early, elementary and secondary school, this document helps further explain how teachers and administrators can use as a pedagogical tool to achieve it all. goals The basic principles and results foreseen in the NEP. Educators can use the guidance in this document as part of curriculum and pedagogy, teacher training and school leadership. Current curricula want to change to produce students with interests in physical education and sports. Situations that require destiny above all else are the right curriculum to do and observe and vomit. Modern practices and current curricula want to change to produce students with interests in physical education and sports. Situations that require destiny above all else are the right curriculum to do and observe and vomit. The era can even play an important role in the growth and development of the sport. The importance of physical training and athletic performance in sport is recognized in today's world, and efforts are being made to improve conditions so that competence can be recognized more and more.*
