Abstract*: Atma Nirbhar Bharat, translating to Self-Reliant India, is a vision that seeks to propel India towards self-sufficiency and resilience across various sectors. This research paper delves into the role of Artificial Intelligence (AI) and Drone Technology in driving socio-economic progress within the framework of Atma Nirbhar Bharat. By examining the applications, challenges, and potential impact of these technologies, this paper aims to elucidate how they can serve as catalysts for innovation, efficiency, and inclusive growth in India*

Keywords: Atma Nirbhar Bharat, Artificial Intelligence, Drone Technology, Socio-economic Progress, Innovation
