**Abstract:** *College Forums is online discussion group. College Forums provide a common area for students, teachers, alumni to come together and discuss unlimited topics, including social activities and educational ideas. Allowed Participants can create new threads under different categories and post them on timeline, the other registered users and admin allowed to comment, like or dislike that post. Admin have authority to accept or block the users, most likes post can be added in favorite list etc. Users can view their personal details and they have access to change their password. The main feature filtering abusive words added in comment part. If users make bad comment on other users post then that comment can be blocked by admin and not viewable on timeline. Users can sort post on timeline according to most likes or recently updated options. This System helps for managing all thread/post, replies and like from users with proper well-structured flow.*

**Keywords:** college Forum, Discussion, web application, alumni, thread, portal
