**Abstract:** *The study is based on analysis of Savriver, Savitri river, Chaudhary talaav for this purpose water samples have been collected from these three water resources i.e boring water ,well water, then total hardness, acidity, pH, COD ,dissolved oxygen, conductance, turbidity of those water samples have been carried out for this project aim is to find total hardness, acidity, pH, and COD, dissolved oxygen, turbidity, conductance of three water samples.[1].*

**Keywords:** Acidity, pH, COD, total hardness, turbidity, conductance, dissolvd oxygen
