Abstract: *Organizing, categorizing, protecting, and keeping your art and art equipment are one of the difficult situations of an artist this day. Most people struggle with it at some point or another. One of the biggest reasons it's hard to declutter for many people is simply lack of storage, so this can make organizing items more difficult. The proponents conduct this study to formulate Retractable Art Materials Case with Compartments, made of wood. It is to help improve and easy for the artist organizing their art materials. This product could be adjusted and slide on the both sides to keep the layers accessible. To measure the effectiveness of of the Design and Development of Retractable Art Materials Case with Compartments, the proponents construct the product at Kaskag Brgy. Washington, Surigao City, by the following procedures of constructing Retractable Art Material Case with Compartments.*

Keywords: Retractable, Art Materials, Compartments
