

Scope in Automobile Technology

Shubhangi Ranaware

Mechatronics Department

Guru Gobind Singh Polytechnic, Nashik

Abstract: *From designing and manufacturing to testing and repairing vehicles, this field offers a multitude of career paths. Dive into automotive engineering courses at various levels and discover opportunities in industries like manufacturing, supply chain management, and more. Develop essential skills like computer proficiency, creativity, technical know-how, problem-solving, and mathematical acumen to excel in this dynamic industry.*

Keywords: manufacturing
