**Abstract:** Over the past few years, activated charcoal has been used as an active ingredient in cosmetic products. Due to its adsorbing properties, it is well being used in all kinds of beauty products from face masks to cleansers and also even soaps. Activated charcoal is used as an active ingredient in this formulation. Natural remedies are more acceptable in the belief that they are more safe with fewer side effects than the synthetic formulations. Herbal formulations have growing demand in the world market. Herbal face masks are applied to increase the blood circulation, rejuvenates and helps to maintain the skin elasticity and it also remove the dirt from skin pores. It is a very good endeavor to establish the herbal face mask containing various herbal powders. The main advantage of herbal cosmetics is its non-toxic nature, and it reduces the allergic reactions. In this article, we have formulated activated charcoal peel off mask and also evaluated it by using different test methods. The formulation showed amazing results after its application. The use of these face masks include cleansing, moisturizing and nourishing facial skin. This peel-off masks have the advantage of being practical because of their peeling off property and it lift like an elastic membrane.
