Abstract: *In today's growing world, there are lots of crimes coming in picture. But every crime is taken in consideration and technologies and invented to prevent them. Compare to every crime very less actions had taken against girl's safety. When we talk about technology our country had done very less invention. After doing lots of research and studies many things came under consideration. The motive behind writing this is to create awareness among people and make a serious topic for discussion and innovation.*

Keywords: Crime, Girls Safety, Invention, Technology
