Abstract: Camping is a popular form of accommodation and outdoor recreation, providing liminal opportunities to escape, revive, and socialize with family, friends, and fellow campers. Surprisingly, online presence of this sector is very low. In this project we tried to create online presence of the campgrounds which can help this sector to grow. There will be two basic users of this project Campaign owners and People who want to campaign. Using proposed website campaign owners can post their campground details on the website free of cost by just creating one account. People who are planning for campaigning review different campgrounds before visiting there, after the actual visit different people can put in their comments and concerns, so that it is a well informed and well-prepared camping trip for other users. Most of the people plan their trip by looking at a review of particular site they are going to visit hence it will great help for trekkers and campaigners out there. This website include Features like Search nearby campgrounds, Authentication, Authorization, Post Campground, Review Campground, Post Comment on campground. This features makes website effective for all the users.
