Abstract: *The COVID-19 pandemic has not stopped at national borders. It has affected people regardless of nationality, level of education, income, or gender. But the same has not been true for its consequences, which have hit the most vulnerable hardest. This crisis has exposed the many inadequacies and inequities in our education systems. There is a significant positive relationship between the emotional aspect, financial aspect, and the impact of COVID-19 among Kerala's students in higher learning institutions. There is a significant unfavorable influence on the emotional, and financial impact of COVID-19 among Kerala's students in higher learning institutions.*

Keywords: Financial, Emotional Aspect, Covid-19
