Abstract: *This is a study of the evolution of the cloud technologies in full stack development for storage purpose due to advancement of technology. It helps give you a better understanding of what full stack development was and how full stack development evolved, it shows a take on the fact that full stack development is not dead and has just evolved to better accommodate the user's needs.*

Keywords: Full Stack Development, Cloud Computing, Networking Model, Front-end Development, Back-end Development, Stack, Cloud, API, Development
