**Abstract:** *Eco-friendly is the term basically refers to the marketing of goods and services, legal guidelines and politics that cause minimum or no harm upon ecosystems or the environment. Environment friendly life means having a lifestyle that is helpful to sustain the nature in its original form. It leads to make this planet that is our mother earth, the better place for our present communities and for the future generations to come. The modern Science Fiction writer, R. J. Sawyer, also creates a new world. The writer highlights the eco-friendly lifestyle of Neanderthals contradictory to human world in The Neanderthal Parallax. It is an idealism and very difficult to apply in the human world. However, it suggests an ideal way to follow eco-friendly life to save our mother earth.*

**Keywords:** Science Fiction, Eco-friendly lifestyle, clean energy, solar energy, utopia, dystopia, New Wave Canadian Hard Science Fiction, Neanderthals, Codon Writer
