Abstract: *The present research seeks to study in depth the Working Capital Management of carpenta Carbonite Company, Mannampetta. The present research of working capital management needs special attention for efficient working and the business .It has been often observed that the shortage of working capital leads to the failure of a business. The proper management of working capital may bring about the success of a business firm. The management of working capital includes the management of current assets and current liabilities. The present research undertakes to deal with the net concept of working capital; excess of curliabilities over current liabilities. Working capital management is also known as short term financial management and is mainly concerned with the decisions relating to current assets and current liabilities.*

Keywords: Working Capital, Financial Management, Current Assets And Current Liabilities
