Abstract: *The Sustainable Development Goals provide a comprehensive framework for creating a better future for all. Sustainable Development Goals can be achieved by businesses, and the good news is that this is good for both humanity and business. As part of Atmanirbhar Bharat's agenda, we are promoting MSME development and creating good infrastructure to support MSME. We are also encouraging MSME for the production of products with domestic value addition and reducing imports. MSME producers in our nation were also encouraged by this mission to produce import substitution goods. Additionally, the sector contributes to the generation of employment, economic development as well as the development of backward and rural areas of the nation. By providing credit facilities and skilled entrepreneurs to MSME, the Indian government promoted MSME through various atmanirbhar bharat schemes, which made this sector more competitive and attractive, both nationally and internationally.*

Keywords: Micro, small and medium-sized enterprises, sustainable development, Atmanirbhar Bharat, Poverty alleviation, industry innovation, economic growth
